BULK CABLE RATES

At the present time we have in effect Rates CTV 3, CTV 5, and CTV 8 for bulk service.

CTV 3 covers basic service only and the Conway Corporation provides all equipment required to serve individual television receivers. This is rated at 64.25 per month per room at 100% occupancy rate.

CTV 5 covers basic service only and the owner provides all cable and electronic equipment required. This is rated at \$3.00 per month per room at 100% occupancy rate,

CTV 8 provides basic and premium channels to bulk customers. This is rated at 617.95 per month per room at 100% occupancy.

The proposed rate would replace CTV 3 and CTV 5 and eliminate CTV 8. The 83.00 rate and the \$4.25 rate would remain in effect for basic service, but the premium channel rate would change to \$4.50 per month for each channel added.

This reduction was made possible by the addition of a Bulk rate made available to us by our programming suppliers. Since the cable industry is being deregulated it is now possible for programming suppliers to contract direct with bulk users within franchised areas, provided the bulk customer has his own dish and receiver. In order for the cable system to compete, the programming suppliers have lowered their rates for bulk customers and the cable system is able to pass this saving on to their customer. This allows the cable system to add the premium channels to their programming package for bulk customers, but also gives the bulk customers an incentive to remain on the basic service.
