Dear Ronnie,

In a recent conversation with you, a request was made by you for verification of three fires that occurred at the Conway Recycling Center located at 301 Commerce Road.

The first fire occurred on December 24, 1992. Major damage to the contents and structure were noted after the fire. The fire was determined to be incendiary according to Bart Castleberry, Fire Marshal at the time.

The second fire occurred on December 6, 1993. This fire was started in four separate places in the facility. Cotton products and paper that were not ignited in the previous fire were involved in the fire. The probable cause was of an incendiary nature.

The third fire occurred on June 27, 1995. The fire was of a similar nature to the fire in December, 1993. The same materials were ignited in several areas. The probable cause was of an incendiary origin.

The Conway Recycling Center, in my opinion, is a fire hazard in respect to endangering firefighters lives and the industries surrounding the property. Demolition of this facility would be advisable as soon as possible.

If you have any questions, feel free to call me a 450-6148.
