Adjournment
MEMORANDUM

TO:        MAYOR TAB TOWNSELL
FROM:     RONNIE HALL, P.E.
          CITY ENGINEER
DATE:     January 23, 2009
REFERENCE:  2009 Street Projects

The Street Department work crews are scheduled to complete the following 2009 Street Projects:

1. **Drainage Improvements from Deer @ RR to Chestnut & Prairie** – Install 36” to 24” Storm Drainage pipe along Deer from Railroad to Chestnut Street and along Chestnut Street from Deer to Prairie Street. This will reduce the frequent flooding potential at the Front Street & Deer Street Intersection and intercept a significant volume of Water at Chestnut & Prairie. Intercepting the stormwater at Prairie & Chestnut will remove stormwater from the flooding area of Chestnut & Main Street and thus reduce the flooding frequency of the downtown area.

2. **Streetscape Work around Satterfield Station** – Construct sidewalk, curb & decorative brick strip at the northeast corner of Prairie & Front Street around the “Satterfield Station” project now under construction.

The above projects will be completed by April 2009 and we will be available to begin a new project.

The 2009 Street Budget includes $657,000 in our street overlay and rehabilitation line item. Two projects that would probably fit our abilities more appropriately that a general contractor is the improvement of Washington Avenue north of Fleming and the improvement of Factory Street between Oak & Mill Street. The Washington Avenue improvement project would provide for a 36’ curbed street with a possible include a roundabount at Fleming & Washington and should provide a north bound right turn lane at Old Morrilton Highway.

The Factory Street improvements would provide a curbed street along one of the only open ditch streets in this section of town.

**2009 STREET FUND PROJECTS**

I have attached a summary sheet listing several street overlay and street reconstruction projects. Our budget includes $657,000 for street overlays and reconstruction. The following projects in my opinion need to be funded to properly address the maintenance of the street infrastructure:

1. **Hogan Road Overlay – Tyler Street to U.S. 64** – $130,000 - The existing pavement is showing signs of rutting & failure. If we do not overlay this high traffic volume section of roadway soon, we will lose the integrity and support value of the existing pavement structure.

2. **Sanders Street** – U.S. 65B to Outback Drive. - $32,000 - The existing pavement along this section of street is failing as can be seen by the cracking section of asphalt and the depressions developing along the vehicle wheel path. This road is in poor condition and certainly does not give the large number of visitors using this road a favorable impression of Conway.

I have also attached a summary sheet showing the status of the Impact Fee Projects and the “Pay as You Go” Sales Tax Projects.
