SUBJECT: Recommendation and Justification to Establish a Commercial Plans Review Fee

Attached find a proposed ordinance drafted for the purpose of amending the permit fees for the City of Conway to include a commercial plans review fee.

A comprehensive plan review of construction drawings submitted for permitting purposes is intended to achieve the following:

1. Section 106.3 of the Arkansas Fire Prevention Code, Volume II (the adopted commercial building code for the City of Conway) states, “106.3 Examination of documents. The building official shall examine or cause to be examined the accompanying construction documents and shall ascertain by such examinations whether the construction indicated and described is in accordance with the requirements of this code and other pertinent laws or ordinances.”
   
   By City Code, a plans review of commercial construction drawings is required.

2. The purpose of the plans review is to identify code issues on paper and have such issues corrected by the licensed design professional prior to initiation of construction.

3. Many code issues, if not addressed correctly at the plans stage, can have a devastating effect on cost of the project when encountered in the field, after the construction is in place.
4. Many code issues are very complex and are beyond even the best field inspector’s capabilities to recognize in the field.

The justification for the establishment of the plan review fee is as follows:

1. It is recommended practice to establish a fee schedule with the intent that the fees collected by the department for building permit issuance, plan review and inspection be adequate to cover the cost to the department in these areas.

2. A thorough plans review of a sizeable commercial project can take as many as 4 to 6 hours time initially with additional time necessary for re-review and re-re-reviews after architectural revisions are resubmitted.

3. The general public would not have to subsidize the building codes enforcement efforts if the fees collected for building permits, plans reviews and inspections are designed to cover cost of providing the services provided.

4. Plans review fees are common in municipalities that perform a comprehensive commercial plans review. (i.e. Little Rock, Fayetteville, Harrison, Batesville, Fort Smith, Malvern)

5. 2009 building permit fees were collected in the amount of $234,930.00. The implementation of a plans review fee as suggested would create an additional revenue (based upon the 2009 permit fees) of $117,465.00. Totaled together, the 2009 building permit fees plus the proposed plan review fee would have generated $352,394.00.

Please let me know if you have any questions or need additional information.

SUBJECT: Recommendation and Justification to Amend the Mechanical Permit Fee Schedule

I would like to recommend a change to the Schedule of Mechanical Permit Fees:

Such changes are reflected in the following Fee Schedule with the new fees noted in **bold italic font**.

<table>
<thead>
<tr>
<th>Schedule of Mechanical Permit Fees</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Heating and Cooling Systems for a new construction, Additions and Accessory Buildings</td>

</tr>
<tr>
<td>2. Remodel, Renovations, Alterations, Replacement and Repairs to:</td>
<td></td>
</tr>
<tr>
<td>One and Two Family Dwellings</td>
<td>$30.00</td>
</tr>
<tr>
<td><strong>Other than One and Two Family Dwellings</strong></td>
<td></td>
</tr>
<tr>
<td>Boilers</td>
<td>$50.00 for one boiler + $15.00 per each addn. boiler</td>
</tr>
<tr>
<td>Commercial Vent Hoods and Exhaust Systems</td>
<td>$50.00 for one exhaust system + $15.00 per each addn. system</td>
</tr>
<tr>
<td>Ductwork</td>
<td>$50.00 for one system + $35.00 per each addn. system</td>

<tr>
<td>HVAC Change Out/Repair</td>
<td>$50.00 for one unit + $25.00 per each addn. unit</td>

<tr>
<td>Refrigeration</td>
<td>$50.00 for one refrigeration unit + $15.00 per each addn. unit</td>
</tr>
<tr>
<td>4. Re-Inspections and Additional Inspections (See note below)</td>
<td>$25.00 per inspection</td>
</tr>
<tr>
<td>5. Work commencing before permit issuance</td>
<td>Permit fee shall be doubled</td>
</tr>
<tr>
<td>6. Building Code Appeals Board Application Fee</td>
<td>$250.00</td>
</tr>
</tbody>
</table>

*Note – Re-inspections will not be rescheduled until each re-inspection fee for each trade that failed inspection has been paid.*
The justification for the change to the Mechanical Permit Fee Schedule is as follows:

The current Schedule of Mechanical Permit Fees is adopted with a Minimum $30.00 Mechanical Fee for all “Remodel, Renovations, Alterations, Replacement and Repairs” projects.

This fee is applicable regardless of the amount of work involved or the extent of inspections required.

The same $30.00 “remodel” fee applies regardless of the extent of the work. A change out of a single mechanical unit on a single family residence is charged the same permit fee as a remodel to a commercial “big box” type of retail facility which may be changing out a dozen mechanical units on the roof, several refrigeration units inside and replacing the commercial vent hoods in the building.

The proposed fee change allows for a continuation of the current fee for one and two family dwellings but changes the fee for projects other than one and two family dwellings to be more commensurate with the scope of the work being installed and the amount of time necessary to conduct the inspection.

Attached find a proposed ordinance drafted for the purpose of amending the Mechanical Permit Fee Schedule in the manner noted above.

Thanks for your help in the matter.

Notice is hereby given that a public hearing will be held before the City Council of the City of Conway, Arkansas, at 6:30 o'clock p.m., on Tuesday, May 11, 2010, at the regular meeting place of the City Council, at District Court, 810 Parkway Street, Conway, Arkansas 72032, on the question of the adoption of an ordinance authorizing the issuance of not to exceed $45,000,000 principal amount of industrial development revenue bonds on application of Kimberly-Clark Corporation, a Delaware corporation (the "Company"). The bonds will be issued under applicable laws of the State of Arkansas, including particularly Title 14, Chapter 164, Subchapter 2 of the Arkansas Code of 1987 Annotated, to finance the costs of acquiring and installing machinery, equipment and other personal property in connection with an expansion of the Company's consumer products production plant located at 480 Exchange Avenue, Conway, Arkansas 72032.

The facilities being financed will be owned by the City and leased to the Company for lease rentals sufficient to provide for the payment of the principal of, premium, if any, and interest on the bonds, as due. The bonds will not be general obligations of the City, but will be special obligations, and in no event will they constitute an indebtedness of the City within the meaning of any constitutional or statutory limitation.

Interested persons may appear at the public hearing and express their views on the proposed issuance of the bonds. At the hearing all objections and suggestions will be heard and considered, and the City Council will take such action as is deemed proper in the premises.

REFERENCE: Moon Trust Considerations
New Conway Airport Property

As per request of Stuart Moon (coordinator for Moon Trust Heirs) the following side issues are submitted for your consideration.

• Lease of the 2.2 Acre triangular shaped area that extends beyond the normal western limits of the airport boundary to the individual (currently Jerry Pearson) leasing the adjacent Moon property. This would allow the farmer to plant and harvest parallel to the runway without creating additional turn rows which result in non productive land. The agreement would include a crop lease rate of $50 per acre payable to the city and a limit of 5 years to the this commitment. The airport perimeter fence would not follow the boundary of this property, but would remain parallel to the runway.

• Relocation of Owens Road to the south boundary of the Moon Property to eliminate the turn rows that would be created if the road remains and long rows were created parallel to the runway. This relocated Owens Road would be along the location of a County Road that existed until a few years ago. A 50 foot wide easement should be secured from the Moon Trust folks for this roadway.

The improvement of the relocated of Owens road could be included in the airport construction package. The road would be constructed as a gravel road.

The approval of these considerations would enhance the ability to settle the Moon Trust issues.
