Re: Developing the Old Landfill Area for Mountain Bike Trails

It has come to our attention that the old city landfill property on Blaney Hill Road would make an ideal mountain bike and hiking area. In particular, the 70 acres west of the land fill cap could, with some volunteer help, easily be developed into trails. Erik Leamon, owner of The Ride, knows of a number of individuals willing to help with this project. Conway Advocates for Bicycling will also provide volunteer help for such a project.

Cheryl Harrington has already contacted ADEQ and learned that if we are not disturbing the old landfill cap we can proceed with development in the area, but if we are doing any type of disturbance to the cap we need to submit more detailed plans to the Solid Waste Division.

Any extensive development on the landfill cap is not advisable at this point as there may be a need to repair or replace the cap in the near future and hence any development could be lost.

If you have any questions please advise.

Synopsis of Proposed Zoning Ordinance Amendments Creating a T-2 Rural Zone
and Supporting Revisions

The proposed ordinance amends the Zoning Ordinance to create a new zone, the T-2 Rural zone. The T-2 Rural zone is to be applied to appropriate areas in the Conway Territorial Jurisdiction. State law allows Conway’s to extend its zoning up to two miles beyond the City Limits.

Section 1: Classification of Zoning Districts.
This section clarifies the general introductory paragraph and creates the T-2 Rural District.

Section 2: T-2 Rural Zone Specific Regulations
This section creates the specific regulations of the T-2 Rural zoning district. This zone will regulate inappropriate land use within the Territorial Jurisdiction. Basically, any residential use is allowed by right. Any use more intensive than residential will require a conditional use permit. This permit will be sought like any other CU permit within the city. These regulations would help ensure a quality of life for residents in the territory and adjacent city. Fireworks sales will be allowed by right.

Lot dimensions, setbacks, building height, etc. are not regulated for large lot subdivisions or tracts of land. A large lot subdivision in the Territorial Jurisdiction is defined in the Subdivision Ordinance as a subdivision having lots with greater than 150 feet of street frontage.

No building permits or inspections are required. Likewise, the animal control ordinance and nuisance abatement ordinance will not be enforced in the territory.

Signage will be regulated as per the Conway Sign Ordinance, Section 1301 of the Zoning Ordinance.

A pre-existing non-conforming use (grandfathered) shall lose it’s legal standing upon closure or vacancy. Before a business may reopen, it must seek a conditional use permit.

Section 3: Sign Ordinance Amendments
This section makes changes to the sign ordinance adding the T-2 Rural zone. T-2 signs shall be regulated like signs within the city limits. For example, a commercial business may have a monument sign up to 8 feet in height and up to 64 square feet in area per side. Sign permits would be required.

Section 4: Continuation of Nonconforming Buildings
This section clarifies language concerning the pre-existing nonconforming status of structures in relation to the new T-2 Rural zoning district. Actual structures not in compliance with standards such as setbacks etc., shall be allowed continued use. However, non-residential uses in the Territory will lose their pre-existing non-conforming status upon closure or vacation of the building. For example, if a business closes, ceases operation, or vacates a building they must seek a conditional use permit before another business may resume at the property.

Dear Council Members:

At its regular meeting on Monday, March 21, 2011, the Planning Commission reviewed a proposed ordinance amending Sections 201.1 and 201.3 of the Conway Zoning Ordinance to zone property within the Conway Territorial Jurisdiction along Highway 65 and Highway 64 West to T-2 Rural Zoning District. The special meeting convened at 7:00 p.m. on April 4 with commission members Kent Mathis, Chris Steplock, Jeff Sturdivant, John Hairston, Kim Gardner, Lee Washington, and Craig Cloud present to continue discussion of the proposed ordinance. Also present at the meeting was Treasure Hills Subdivision resident Dawn Jackson.

Mr. Mathis led discussion. Questions were asked of the Director of Planning concerning the choice of applicable area, future annexation plans, “grandfathering” of pre-existing businesses, fireworks and temporary sales, signage, etc. These questions were answered. Minor revisions to the ordinance concerning land use definitions and temporary signage were discussed.

Mr. Steplock made the motion to approve the amended ordinance and forward it to the City Council with a recommendation for their approval. Mr. Hairston seconded. The vote to approve was 6 – 0.

MEMORANDUM

TO: MAYOR TAB TOWNSELL
FROM: ALAN ALVEY
TRAFFIC SYSTEMS MANAGER
DATE: MARCH 29, 2011
REFERENCE: SCHOOL ZONE FLASHERS

The Street and Engineering Department received sealed bids on Tuesday March 29, 2011 for the purpose of upgrading the school zone flasher system from a one way paging system to a two way Ethernet based system. The equipment currently used by the City of Conway uses a 150 MHz paging system for communication. This system has become obsolete and will become unavailable in 2012.

The Street Department already has in place an Ethernet infrastructure at the traffic signals in the City of Conway. These signals are at or near all of the school zone flashers. The current system will be used to communicate with the school flashers. The school zone flashers will be upgraded to use the Ethernet system to create a two way communication path between the traffic operations center and the school zones.

There were four bids received by the Mayor’s office, they are as follows:

Temple Inc $33,826.18
Mid-American Signal $35,888.00
Spot Devices $42,625.00
Pinkley Sales Co. $51,091.84

The Street and Engineering Department is recommending acceptance of the low bid of $33,826.18 and approval for purchase of the school zone flasher system from Temple Inc.

Mayor Tab Townsell

Dear Mayor Townsell,

This is a follow-up letter to summarize our negotiations for a 1031 property exchange between the Hart family and the City of Conway.

We entered into negotiations in August of 2010 to help the city address parking issues for the new Fairgrounds. We have agreed to an in-kind swap of 13 acres of land adjoining the new Fairgrounds (see attached drawing) for 7.69 acres of land on Lake Beaverfork owned by the city.

The appraisals of the property indicated that this would be a more than fair exchange for the city. The Multi Family Land appraised for $55,340/acre by Coats Appraisal Service and $60,984/acre by Affiliated Real Estate for an average of $58,162 per acre. The Beaverfork Land appraised for $600,000 by Coats Appraisal and $500,000 by Affiliated Real Estate for an average of $550,000. The swap based on those values is $550,000 for the city’s 7.69 acres = $58,162/acre or 9.456 acres of Hart Land.

We are agreeing in kind to swap 13 acres for the Beaverfork property which is more than the 9.456 acres that the appraisals indicate. If the city needs more than 13 acres we would be happy to sell additional acreage at current appraised prices. Also, we discussed rezoning our remaining MF-2 property to C-3 which we are interested in pursuing. The best time to sell lakefront property is the spring and spring is drawing near.

Therefore, we are asking to have the issue placed on the Conway City Council agenda so we can move forward if approved.

Thanks again for your time and consideration on this issue.

Sincerely,
