Markham Street Neighborhood Specific Plan

The regulating plan for the Markham Street Neighborhood Specific Plan is ready for adoption.

The ordinance for adopting the Plan by reference is attached. The ordinance also amends the North-east Old Conway Area Specific Plan and the Old Conway Design Overlay District by removing the Markham Street Neighborhood from these two regulating plans. A newspaper public notice was placed on February 21, 2015 and 3 copies of the proposed plan have been in the City Clerk’s Office for public inspection. The document has also been available online at cityofconway.org and conway-planning.org.

The Planning Commission reviewed and recommended approval of the Plan at their February 17, 2015 meeting. Likewise, the Historic District Commission reviewed and recommended approval of the the Plan at their February 26, 2015 meeting.

Adoption of the regulating plan is one of the first steps for area redevelopment. Part of the Plan includes a marketing study and an executive summary outlining a plan of action to “jump start” area redevelopment. This study and summary are also posted at the City websites.
MARKHAM STREET NEIGHBORHOOD SPECIFIC PLAN: AN AMENDMENT TO THE NORTHEAST OLD CONWAY AREA SPECIFIC PLAN

The Markham Street Neighborhood Specific Plan is an amendment to The Northeast Old Conway Area Specific Plan (NEOCA) and will be a new specific plan outside of the NEOCA Plan. The NEOCA Plan was created through a series of community input sessions throughout 2008 and 2009 and was adopted in August 2009. The NEOCA Plan is the first Specific Area Plan adopted by the City of Conway. See Planning 101 for more information on Conway’s Specific Plan Zoning and Small Area Plans)

It was recognized during the creation of the NEOCA Plan that a more specific plan was needed for the Markham Street corridor. Markham Street is seen as an important corridor providing future growth area for downtown. It also serves as a link between downtown, Hendrix College and the Village at Hendrix. In 2013, the Markham Street corridor was selected as part of the Imagine Central Arkansas Jump Start Initiative Project administered by Metroplan. Gateway Planning of Dallas, TX was chosen to conduct a study of the Markham Street corridor and to create regulations to guide future growth in the area.

At the beginning of the study, the Markham Street Specific Plan was envisioned as only an amendment to the NEOCA Plan. Later, it was decided that the Markham Street Neighborhood Plan would not only regulate the Markham Street corridor, but also the entire Markham Street neighborhood. This fits into the scheme of the NEOCA Plan as it identifies 4 distinct neighborhoods covered by the NEOCA Plan. The Markham Street Neighborhood Specific Plan (MSN-SP) is not only an amendment to the Northeast Old Conway Area Specific Plan it is a new separate plan regulating the Markham Street Area. It also incorporates area between Spencer and Front Streets, and Van Ronkle and Garland that were previously not covered by the NEOCA Plan.

The Markham Street Neighborhood Plan is identified as the area bounded by Spruce Street on the north, Harkrider on the east, Van Ronkle on the south, and the railroad on the west. The MSN-SP expands on the transect zoning of the NEOCA-SP with a new Campus-Mixed Use Zone, Street classifications, and more deeply defined building form regulations.

Planning Staff invites the Planning Commission to review the proposed MSN-SP regulations, take public comments, and give a recommendation of approval to the City Council. The regulations will be presented to the Council at the February 24 or March 10 meeting. Planning Staff will present and answer any questions concerning the proposed regulations at both the Planning Commission and City Council meetings.

Start with the Comprehensive Plan and Think Smaller
The City of Conway has a Comprehensive Plan that illustrates the desired land use patterns for the entire 46 square miles of city limits. At this scale, it hard to determine specific land uses for areas with mixed uses. Starting in 2008, the Planning Department began studying smaller areas of the city to create “Small Area Plans”. These plans examine a smaller segment of the City and through community participation create a finer grained vision and regulations for the growth of specific areas. Planning has studied and created plans and/or regulations for:

- Old Morrilton Highway Corridor
- Lower Ridge Road
- Northeast Old Conway Area
- Donaghey Avenue Corridor

The Old Morrilton Highway and Lower Ridge Road studies resulted in amendments to the Comprehensive Plan for those areas. The Donaghey Avenue Study has not been officially adopted by the City, yet serves as a guide for future growth. The Northeast Old Conway Study resulted in the adoption of a regulating plan for the area that not only control land uses, but the form that structures must take.

Specific Plan Zone - Be More Specific
In order to create regulations for the NEOCA, a new zone was added to the Zoning Ordinance; the Specific Plan or SP zone. The SP zone is similar to a PUD in that specific regulations above and beyond typical zoning are created. Unlike a PUD, an SP zone is created by direct community interaction between the residents, area stakeholders, and the City.

NEOCA Transect - Say What?
The SP zone is the overall zone for the Northeast Old Conway Area. This SP zone is further broken down into “Transect Zones” or form based zones with land use and structure form regulations.

Transect zones are based on a cross section of the natural progression of urban to rural land uses and forms. Zones corresponding to these zones are created; T5 - Urban = Vertical buildings, mixed uses such as commercial, office, and residential (downtown); T4 Transitional = Lower buildings with a more residential scale, uses include; light commercial, multi-family, office, town homes, single family, etc.; T3 - Suburban = Residential in nature; cottage homes, single family, etc.

These zones allow a more diverse mixture of land uses and through form regulation, create a more traditional, walkable, and ultimately pleasant place to live and work.

Markham Street - Super Fine
The Markham Street Plan goes deeper into the Northeast Old Conway Area and details land uses, forms, and streetscapes for the Markham Street area. It changes the names of the transect zones to Commercial Mixed Use CM-U (equivalent of T5), Residential Mixed Use Zone R-MU (equivalent to T-4), and introduces a new zone, College Campus Mixed Use CC-MU. The CC-MU designation recognizes the unique needs of Hendrix College which is on the north side of the Markham Street area.

The Markham Street Neighborhood Plan also defines street cross sections, sidewalk details, and open space standards. going beyond the level of detail found in the NEOCA Plan.

The Conway Comprehensive Plan and Small Area Plans can be found at:

The City of Conway Sanitation landfill is subject to the Environmental Protection Agency’s (EPA) and the Arkansas Department of Environmental Quality’s (ADEQ) groundwater monitoring, year-end reports, surveys, solid waste management rules and other contracts as needed. These regulations require groundwater sampling, statistical analysis of groundwater data, and semiannual gas probe monitoring in accordance with the City’s Explosive Gas Monitoring Plan.

Terracon Consultants Inc. for several years has worked on previous reporting and monitoring requirements and the City has benefited from their expertise and in-depth knowledge of the Conway landfill. The Conway Sanitation Department therefore desires to enter into a five year agreement with Terracon Consultants.

Please advise if you have any questions.
Thank you for your consideration.
MASTER SERVICES AGREEMENT

This MASTER SERVICES AGREEMENT ("MSA") is between City of Conway ("Client") and Terracon Consultants, Inc., its subsidiaries and affiliates, ("Consultant") for Services to be provided by Consultant on projects as described in the Project Information section of individual Task Orders or Task Order Proposals (which sections are incorporated into this MSA). For purposes of this MSA, "Client" shall include City of Conway, its subsidiaries and affiliates.

1. Scope of Services. The scope of Consultant's services ("Services") will be set forth in the Scope of Services section of an individual Task Order, or Task Order Proposal (which sections are incorporated into this MSA). Portions of the Services may be subcontracted. Consultant's Services do not include the investigation or detection, nor do recommendations in Consultant's reports address the presence or prevention of biological pollutants (e.g., mold, fungi, bacteria, viruses, or their byproducts) or occupant safety issues, such as vulnerability to natural disasters, terrorism, or violence. If Services include purchase of software, Consultant will execute a separate software license agreement. Consultant's findings, opinions, and recommendations are based solely upon data and information obtained by and furnished to Consultant at the time of the Services. Unless extended by Agreement of the parties, this MSA shall remain in effect for five years beginning on October 1, 2014 and ending on October 1, 2019.

2. Acceptance/ Termination. Client agrees that execution of this MSA is a material element of the consideration Consultant requires to execute the Services, and if Services are initiated by Consultant prior to execution of this MSA as an accommodation for Client at Client's request, both parties shall consider that commencement of Services constitutes formal acceptance of all terms and conditions of this MSA. Additional terms and conditions may be added or changed only by written amendment to this MSA signed by both parties. In the event Client uses a purchase order or other form to administer this MSA, the use of such form shall be for convenience purposes only and any additional or conflicting terms it contains are stricken. This MSA shall not be assigned by either party without prior written consent of the other party. Either party may terminate this MSA or the Services upon 30 days written notice to the other. In such case, Consultant shall be paid costs incurred and fees earned to the date of termination plus reasonable costs of closing the project.

3. Change Orders. Client may request changes to the scope of Services by altering or adding to the Services to be performed. If Client so requests, Consultant will return to Client a statement (or supplemental proposal) of the change setting forth an adjustment to the Services and fees for the requested changes. Following Client's review, Client shall provide written acceptance. If Client does not follow these procedures, but instead directs, authorizes, or permits Consultant to perform changed or additional work, the Services are changed accordingly and Consultant will be paid for this work according to the fees stated or its current fee schedule. If project conditions change materially from those observed at the site or described to Consultant at the time of proposal, Consultant is entitled to a change order equitably adjusting its Services and fee.

4. Compensation and Terms of Payment. Client shall pay compensation for the Services performed at the rates stated in the Compensation section of the individual Task Order, or Task Order Proposal (which sections are incorporated into this MSA). If not stated in either, fees will be according to Consultant's current fee schedule. Fee schedules are valid for the calendar year in which they are issued. Fees do not include sales tax. Client will pay applicable sales tax as required by law. Consultant may invoice Client at least monthly and payment is due upon receipt of invoice. Client shall notify Consultant in writing, at the address below, within 15 days of the date of the invoice if Client objects to any portion of the charges on the invoice, and shall promptly pay the undisputed portion. Client shall pay a finance fee of 1.5% per month, but not exceeding the maximum rate allowed by law, for all unpaid amounts 30 days or older. Client agrees to pay all collection-related costs that Consultant incurs, including attorney fees. Consultant may suspend Services for lack of timely payment. It is the responsibility of Client to determine whether federal, state, or local prevailing wage requirements apply and to notify Consultant if prevailing wages apply. If it is later determined that prevailing wages apply, and Consultant was not previously notified by Client, Client agrees to pay the prevailing wage from that point forward, as well as a retroactive payment adjustment to bring previously paid amounts in line with prevailing wages. Client also agrees to defend, indemnify, and hold harmless Consultant from any alleged violation made by any governmental agency regulating prevailing wage activity for failing to pay prevailing wages, including the payment of any fines or penalties.

5. Third Party Reliance. This MSA and the Services provided are for Consultant and Client's sole benefit and exclusive use with no third party beneficiaries intended. Reliance upon the Services and any work product is limited to Client, and is not intended for third parties. For a limited time period not to exceed three months from the date of the report, Consultant will issue additional reports to others agreed upon with Client, however Client understands that such reliance will not be granted until those parties sign and return Consultant's reliance agreement and Consultant receives the agreed-upon reliance fee.

6. LIMITATION OF LIABILITY. CLIENT AND CONSULTANT HAVE EVALUATED THE RISKS AND REWARDS ASSOCIATED WITH THIS MSA, INCLUDING CONSULTANT'S FEE RELATIVE TO THE RISKS ASSUMED, AND AGREE TO ALLOCATE CERTAIN OF THE ASSOCIATED RISKS. TO THE FULLEST EXTENT PERMITTED BY LAW, THE TOTAL AGGREGATE LIABILITY OF CONSULTANT (AND ITS RELATED CORPORATIONS AND EMPLOYEES) TO CLIENT AND THIRD PARTIES GRANTED RELIANCE IS LIMITED TO THE GREATER OF $50,000 OR THE COMPENSATION PAID TO CONSULTANT FOR THE SPECIFIC PROJECT TASK ORDER IN DISPUTE, FOR ANY AND ALL INJURIES, DAMAGES, CLAIMS, LOSSES, OR EXPENSES (INCLUDING ATTORNEY AND EXPERT FEES) ARISING OUT OF CONSULTANT'S SERVICES OR THIS MSA. PRIOR TO ACCEPTANCE OF THIS AGREEMENT AND UPON WRITTEN REQUEST FROM CLIENT, CONSULTANT MAY NEGOTIATE A HIGHER LIMITATION FOR ADDITIONAL CONSIDERATION. THIS LIMITATION SHALL APPLY REGARDLESS OF AVAILABLE PROFESSIONAL LIABILITY INSURANCE COVERAGE, CAUSE(S) OR THE THEORY OF LIABILITY, INCLUDING NEGLIGENCE, INDEMNITY, OR OTHER RECOVERY. THIS LIMITATION SHALL NOT APPLY TO THE EXTENT THE DAMAGE IS PAID UNDER CONSULTANT'S COMMERCIAL GENERAL LIABILITY POLICY.

7. Indemnity/Statute of Limitations. Consultant and Client shall indemnify and hold harmless the other and their respective employees from and against legal liability for claims, losses, damages, and expenses to the extent such claims, losses, damages, or expenses are legally determined to be caused by their negligent acts, errors, or omissions. In the event such claims, losses, damages, or expenses are legally determined to be caused by the joint or concurrent negligence of Consultant and Client, they shall be borne by each party in proportion to its own negligence under comparative fault principles. Neither party shall have a duty to defend the other party, and no duty to defend is hereby created by this indemnity provision and such duty is explicitly waived under this MSA. Causes of action arising out of Consultant's services or this MSA regardless of cause(s) or the theory of liability, including negligence, indemnity or other recovery shall be deemed to have accrued and the applicable statute of limitations shall commence to run not later than the date of Consultant's substantial completion of services on the project.

8. Warranty. Consultant will perform the Services in a manner consistent with that level of care and skill ordinarily exercised by members of the profession currently practicing under similar conditions in the same locale. EXCEPT FOR THE STANDARD OF CARE PREVIOUSLY STATED, CONSULTANT MAKES NO WARRANTIES OR GUARANTEES, EXPRESS OR IMPLIED, RELATING TO CONSULTANT'S SERVICES AND CONSULTANT DISCLAIMS ANY IMPLIED WARRANTIES OR WARRANTIES IMPOSED BY LAW, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

9. Insurance. Consultant represents that it now carries, and will continue to carry: (i) workers' compensation insurance in accordance with the laws of the states having jurisdiction over Consultant's employees who are engaged in the Services, and employer's liability insurance ($1,000,000); (ii)
commercial general liability insurance ($1,000,000 occ / $2,000,000 agg); (iii) automobile liability insurance ($1,000,000 B.I. and P.D. combined single limit); and (iv) professional liability insurance ($1,000,000 claim / agg). Certificates of insurance will be provided upon request. Client and Consultant shall waive subrogation against the other party on all general liability and property coverage.

10. CONSEQUENTIAL DAMAGES. NEITHER PARTY SHALL BE LIABLE TO THE OTHER FOR LOSS OF PROFITS OR REVENUE; LOSS OF USE OR OPPORTUNITY; LOSS OF GOOD WILL; COST OF SUBSTITUTE FACILITIES, GOODS, OR SERVICES; COST OF CAPITAL; OR FOR ANY SPECIAL, CONSEQUENTIAL, INDIRECT, PUNITIVE, OR EXEMPLARY DAMAGES.

11. Dispute Resolution. Client shall not be entitled to assert a Claim against Consultant based on any theory of professional negligence unless and until Client has obtained the written opinion from a registered, independent, and reputable engineer, architect, or geologist that Consultant has violated the standard of care applicable to Consultant’s performance of the Services. Client shall provide this opinion to Consultant and the parties shall endeavor to resolve the dispute within 30 days, after which Client may pursue its remedies at law. This MSA shall be governed by and construed according to Kansas law.

12. Subsurface Explorations. Subsurface conditions throughout the site may vary from those depicted on logs of discrete borings, test pits, or other exploratory services. Client understands Consultant’s layout of boring and test locations is approximate and that Consultant may deviate a reasonable distance from those locations. Consultant will take reasonable precautions to reduce damage to the site when performing Services; however, Client accepts that invasive services such as drilling or sampling may damage or alter the site. Site restoration is not provided unless specifically included in the Services.

13. Testing and Observations. Client understands that testing and observation are discrete sampling procedures, and that such procedures indicate conditions only at the depths, locations, and times the procedures were performed. Consultant will provide test results and opinions based on tests and field observations only for the work tested. Client understands that testing and observation are not continuous or exhaustive, and are conducted to reduce - not eliminate - project risk. Client agrees to the level or amount of testing performed and the associated risk. Client is responsible (even if delegated to contractor) for requesting services, and notifying and scheduling Consultant to perform these Services. Consultant is not responsible for damages caused by services not performed due to a failure to request or schedule Consultant’s services. Consultant shall not be responsible for the quality and completeness of Client’s contractor’s work or their adherence to the project documents, and Consultant’s performance of testing and observation services shall not relieve Client’s contractor in any way from its responsibility for defects discovered in its work, or create a warranty or guarantee. Consultant will not supervise or direct the work performed by Client’s contractor or its subcontractors and is not responsible for their means and methods.

14. Sample Disposition, Affected Materials, and Indemnity. Samples are consumed in testing or disposed of upon completion of tests (unless stated otherwise in the Services). Client shall furnish or cause to be furnished to Consultant all documents and information known or available to Client that relate to the identity, location, quantity, nature, or characteristic of any hazardous waste, toxic, radioactive, or contaminated materials (“Affected Materials”) at or near the site, and shall immediately transmit new, updated, or revised information as it becomes available. Client agrees that Consultant is not responsible for the disposition of Affected Material unless specifically provided in the Services, and that Client is responsible for directing such disposition. In the event that test samples obtained during the performance of Services (i) contain substances hazardous to health, safety, or the environment, or (ii) equipment used during the Services cannot reasonably be decontaminated, Client shall sign documentation (if necessary) required to ensure the equipment and/or samples are transported and disposed of properly, and agrees to pay Consultant the fair market value of this equipment and reasonable disposal costs. In no event shall Consultant be required to sign a hazardous waste manifest or take title to any Affected Materials. Client shall have the obligation to make all spill or release notifications to appropriate governmental agencies. The Client agrees that Consultant neither created nor contributed to the creation or existence of any Affected Materials conditions at the site. Accordingly, Client waives any claim against Consultant and agrees to indemnify and save Consultant, its agents, employees, and related companies harmless from any claim, liability or defense cost, including attorney and expert fees, for injury or loss sustained by any party from such exposures allegedly arising out of Consultant’s non-negligent performance of services hereunder, or for any claims against Consultant as a generator, disposer, or arranger of Affected Materials under federal, state, or local law or ordinance.

15. Ownership of Documents. Work product, such as reports, logs, data, notes, or calculations, prepared by Consultant shall remain Consultant’s property. Proprietary concepts, systems, and ideas developed during performance of the Services shall remain the sole property of Consultant. Files shall be maintained in general accordance with Consultant’s document retention policies and practices.

16. Utilities. Consultant shall provide the location and/or arrange for the marking of private utilities and subterranean structures. Consultant shall take reasonable precautions to avoid damage or injury to subterranean structures or utilities. Consultant shall not be responsible for damage to subterranean structures or utilities that are not called to Consultant’s attention, are not correctly marked, including by a utility locate service, or are incorrectly shown on the plans furnished to Consultant.

17. Site Access and Safety. Client shall secure all necessary site related approvals, permits, licenses, and consents necessary to commence and complete the Services and will execute any necessary site access agreement. Consultant will be responsible for supervision and site safety measures for its own employees, but shall not be responsible for the supervision or health and safety precautions for any other parties, including Client, Consultant’s contractors, subcontractors, or other parties present at the site.

Re: Repairs to Landfill Compactor

The Sanitation Department is in dire need of repairs to their Bomag Compactor purchase from G.W. Van Kepple. This equipment is essential to the operation of the Landfill compaction. The compactor went down on March 2nd, 2015. This compactor has four pumps that drives each individual wheel; our assessment was that a pump has gone out; however we had G.W Van Kepple give us a secondary assessment.

On March 3rd, 2015 they confirmed that the right front pump was out and we received a quote on March 4th, 2015 in the amount of $40,895.42. This includes a $14,496.88 core charge that will be reimbursement to us as long as our bad pump is rebuildable.

The compactor is essential to our operations. Each day the compactor is down it will cost approximately $1,000.00 due to the fact that we can’t get the compaction rate from any other piece of equipment that we have. This is also taking away some of the life expectancy of our landfill.

Please advise if you have any questions.

Thank you,

MEMORANDUM

TO: Mayor, Tyler Winningham, and City Council
FROM: Lloyd Hartzell, Director Information Technology / CTO
DATE: February 2, 2015
SUBJECT: Purchase additional storage

We have reached a critical level on our SAN (storage). There is an immediate need to purchase additional storage to avoid network shutdown.

For servers to store data and replicate correctly we need to stay below 70% on available space, we are close to 100%. We have been working with HP to clean up old servers and recover any available space to stay below the threshold.

We have managed to keep our storage below the 70% threshold with the original storage we purchased initially. With the new servers and SAN the technology allowed us to increase the storage with the same amount of disc space.

With the continued growth of databases and the increased need for video storage, it was inevitable that we would need more storage. The sudden exponential growth of storage needs is due to increased video storage and the continued growth of our databases, i.e. Police, Fire, Finance, 911 (CAD), and Disc.

There are 3 phases:

Phase 1: purchase additional storage. If the SAN reaches 100% to avoid network shutdown. $88,453.00.

Phase 2: purchase flex fabric hardware for Bid-Directional Synchronous Replication, $61,800.00.

Phase 3: purchase additional blades. $49,290.00. We continue to receive requests from departments for new servers. Blades allow us to create virtual servers.

Total $199,543.00
