Cheryl Harrington, Sanitation Director, recommended the bid from River City Hydraulics, Inc. in the amount of $436,918.00, after a trade-in; the price includes tax and delivery costs. Ms. Harrington stated she is recommending the higher bid because we know nothing about the company, Plum Creek Environmental Technologies, nor do we know anything about the baler. Ms. Harrington explained we requested information from Plum Creek, on the baler and on other municipalities equal in waste production who use this equipment. Ms. Harrington went
onto say this information was not provided to us, and no discussion ensued until Plumb Creek realized that we were not pleased due to the lack of knowledge/information we have on their baler. Ms. Harrington stated the baler we currently use is identical to the one we requested to replace; it has been in use for 10+ years and is worn out. Ms. Harrington explained we feel confident in spending the additional funds to purchase a baler we know how to use and we receive excellent service from River City Hydraulics. Alderwoman Smith motioned to approve the bid from River City Hydraulics. Alderwoman Whitmore seconded the motion. Danny Alford, Sanitation Dept., explained Plum Creek supplies an international baler, which appears to be a good baler, with a little different footprint than what we currently have, a smaller exit opening, which would not allow us to bale as much as quickly; the biggest concerns are there are no balers like this in the state of Arkansas and there is no service area near Conway.
