Chevrolet Silverado (1 ton pickup) from Bale Chevrolet in the amount of $22,223.00.

Alderwoman Smith motioned to accept the low bids. Alderwoman Whitmore seconded the motion. Mayor Townsell stated there has been a question raised in regards to the Heavy Duty Skid Steer Loader (John Deere 332) meeting bid specs. Scott Smith, Hugg & Hall Equipment Co., stated the bid specs stated that the minimum operating capacity should be 3,300 pounds and the information he has found on the John Deere shows its capacity at 3,175. Secondly, the bid specs on the drive chain specified that the final drive chain should be no less than 120; the John Deere’s is 100, and lastly Mr. Smith explained that he is unsure if the John Deere would operate the street department’s 40” planer with the joystick control which was a stipulation. Mr. Smith explained that the John Deere equipment was tested at the street department to see if the joystick would work and it would not. Mr. Hall explained the bid specs for the Heavy Duty Skid Steer Loader matched so closely to the Bobcat is because the bid specs were written from a Bobcat. Mr. Hall went onto say the Skid Steer Loader would not hook up to the grinder because of the electrical connection and AgPro is ordering the mechanism to make this connection operate, and before we pay for this item, it must meet the specs and operate the pavement grinder. Alderwoman Smith motioned to accept the bid for the Heavy Duty Skid Steer Loader in the amount of $34,766.00 from Hugg & Hall for $34,766.00 and to accept the low bids on the Small Skid Steer Loader and the Chevrolet pickup.
