SITE DATA
Location. West side of 5th Avenue, approximately 155 feet south of the intersection of Maple Street and 5th Avenue.

Site Area. 0.99 acres ±.

Current Zoning. R-2 (Low-Density Residential District).

Existing Structures. None.

Overlay. None.

Request. The applicant is requesting preliminary approval of a 6 lot subdivision located on the west side of 5th Avenue, approximately 155 feet south of the intersection of Maple Street and 5th Avenue. The proposed lots would range from 7,000 square feet to 7,197 square feet, consistent with sites in R-2 zoning classification. Access for lot 1 would be provided via 4th Avenue, while access for lots 2-6 will be provided via 5th Avenue.

Waivers Requested.
No waivers were requested as a part of this application.

STAFF RECOMMENDATIONS
Planning Staff recommends approval of the preliminary plat contingent upon the completion of the amended punch list and associated conditions of approval. The proposed lot sizes and frontage widths are consistent with the requirements of the R-2 zoning district.

CITY OF CONWAY
PLANNING & DEVELOPMENT DEPARTMENT
5TH AVENUE REPLAT
The following lists the items that are reviewed by the Conway Planning Department for the changes and/or additions as required by the applicable provisions of the Conway Subdivision Ordinance.

CORRECTIONS NEEDED ON THE PLAT
1. Show all hydrant locations.
2. Corrections as noted on Preliminary Plat.

CONDITIONS
1. Preliminary Plat approval from all reviewing agencies shall be obtained.
2. A draft of any Bill of Assurance proposed for the subdivision generally describing proposed covenants, restrictions and conditions applicable to the property included in the submitted plat.
3. Fire hydrants must be placed so that the furthest point of a lot in a residential subdivision is no more than 600 feet from the hydrant located on the same street. Variances must be approved by the Planning Commission and Fire Chief.
4. Minimum clearance of twenty-six (26) feet must be provided around a fire hydrant.
5. Utility easements as required by Conway Corporation are needed.
6. Drainage easements as required by the City Engineer are needed. (p. 33)
7. All other applicable provisions of the City of Conway Subdivision Ordinance (O-00-03) shall be satisfied and accounted for prior to Preliminary Plat approval.

SITE DATA
Location. 1232 Watkins St.

Site Area. 1.79 acres ±.

Existing Structures. ~23,750 SF Church Building.

Requested Rezoning. S-1 (Institutional District).

Projected Traffic Impact. With a rezoning to S-1, the likely increase in traffic impact would be modest, as no new structures are anticipated. With an assumption of 5,000 square feet devoted to the daycare during the work week, it is anticipated the site would generate about 400 vehicle trips per typical work day.

Current Traffic Counts. N/A (Estimated to likely be between 500-1,000 vehicles per day.)

Flood\Drainage. The site is not within any regulated floodplains or floodways.

Utilities. The site is currently served by utilities.

Master Street Plan. Watkins Street – Collector, Lee Avenue – Collector.

Street Improvement. No current improvement plans.

Conway 2025. Not specified.

STAFF COMMENTS
• The applicant intends to open a daycare associated with the church on-site. That use is not allowed in the current zoning, but is permitted in the S-1 zone.
• The purpose of the S-1 zone is to “provide for large scale developments involving schools (other than regionally accredited colleges), churches, and other institutional uses and for limited retail and service uses that are accessory to the principal use.”
• The zoning change would allow numerous uses that are currently allowed on the property as a conditional use to be permitted by right.
• The following are examples of uses which would be allowed by right on the property: nursing home, shelter for abused persons, teaching studio, schools, office.
• S-1 zoning is intended for properties such as this site.
• The zoning change is not consistent with the land use plan. However, this is due to the fact that the plan only indicates institutional use for very large sites such as the Human Development Center.

STAFF RECOMMENDATIONS
Staff recommends approval of the rezoning. The proposed zoning is consistent with the present and proposed use of the site and will likely not cause harm to surrounding properties.

SITE DATA
Location. Land at the western end of Harbelle Drive north of Empy Trail.

Site Area. 31.36 acres ±.

Current Zoning. County (None).

Existing Structures. None.

Overlay. None.

Requested Zoning. R-1 (Single-Family Residential District).

Projected Traffic Impact. No increase in traffic is anticipated from current status. If developed, the property would likely generate between 100-150 vehicle trips per day, having minimal impact on adjacent streets.

Flood/Drainage. The site is not within any FEMA Flood Zones.

Utilities. The applicant will need to coordinate utilities with Conway Corporation. The site is presently undeveloped.

Street Improvement. There are no current street improvements plans for the area. Extension of streets into the property shall be the responsibility of the developer.

Conway 2025. Not applicable.

STAFF COMMENTS
The applicants are seeking annexation of a 31.36 acre ± undeveloped tract of land. The following comments and findings have been made:

1. The property is currently undeveloped and one applicant is seeking to develop the property in the future as a single-family neighborhood with approximately 15 lots. The area is not currently and would not be served by sanitary sewer service.

2. To develop the site, the applicant will need to extend Harbelle Drive and a southern directed road off of Collins Drive.

3. The applicants are requesting police protection, fire protection, street maintenance, and the ability to connect to Conway Corporation Utilities.

4. The annexation request complies with the requirements of ordinance O-99-95 specifying procedures for annexations.

STAFF RECOMMENDATIONS
Planning Staff recommends approval of this request. The annexation would have limited impact on current city services offered in the area. The land is adjacent to a developing neighborhood and near the proposed Western Arterial Loop.
