COORDINATION OF THE WORK

QUALITY CONTROL REQUIREMENTS
1. All work shall be erected, set, undertaken and performed in a proper and workmanlike manner in accordance with the Plans and Specifications, and work shall be done and materials furnished and used in a manner consistent with the requirements for quality control and testing as noted in this Specification. The Contractor shall submit plans for quality control observation and testing for the acceptance of the Project.

SPECIFIC CONSTRUCTION REQUIREMENTS
1. All work shall be performed in conformance with the Plans and Specifications and in conformance with all applicable laws, regulations, codes and ordinances. The Contractor shall ensure that all work is performed in accordance with the Plans and Specifications and in conformance with all applicable laws, regulations, codes and ordinances. The Contractor shall obtain all necessary permits and approvals for the performance of the work and shall coordinate with the appropriate authorities prior to the commencement of the work.

STORM WATER POLLUTION PREVENTION REQUIREMENTS
1. The Contractor shall take all necessary measures to prevent any pollution of storm water runoff from the Project site except as approved in writing by the City of Conway. The Contractor shall be responsible for ensuring that all storm water runoff is properly treated and discharged into the receiving waters of the Project site.
