Report Description

Report Overview:

This report provides 'Top N' utilization and cost metrics broken out by pharmacy.

Detail Line Description:

Column Name	Description
Carrier	RxCLAIM® Carrier ID, alphanumeric. Part of basic four-tiered system (Carrier>Account>Group>Mbr) allowing for flexibility in defining benefit parameters for a group of people. Carriers are the highest level of the hierarchy used in RxCLAIM. A carrier is typically the company or organization who offers benefits to Mbrs.
Account	Part of a four-tiered system (Carrier>Account>Group>Member) allowing for flexibility in defining benefit parameters for a group of people. Accounts are the second level of the hierarchy used in RxCLAIM. They belong to the Carrier. Accounts can be used by the carrier to categorize their business entities.
Group	Part of a four-tiered system (Carrier>Account>Group>Member) allowing for flexibility in defining benefit parameters for a group of people. Groups are the third level of the hierarchy used in RxCLAIM. They belong to the account. Carriers use groups to further divide accounts, so that specific

benefits can be assigned to each group.

Rank	Not available
Drug Name and Strength	"The Drug Label Name is the abbreviated brand name from the drug label + dosage form + strength. For example: ZOLOFT TAB 50MG"
Total Utilizing Members	A distinct count of members that have at least one paid claim within the specified time frame.
Total Rxs	The total number of rxs.
% of Total Rxs	The percentage of the total number of rxs.
Total Drug Cost	The total drug cost.
Total Plan Paid	Commercial:The Client Total Amount Due. Typically, amount due is calculated as follows: (Ingredient Cost + Dispensing Fee + Tax) – Patient Pay. Medicare Part D:The Client Total Amount Due. For Medicare Part D claims specifically, amount due is calculated as follows: (Ingredient Cost + Dispensing Fee + Tax + Incentive Fee) – Patient Pay. This calculation does not include LICS amount. However check your benefit setup as there is a flag that controls this value in RxCLAIM.
% of Total Plan Paid	The percentage of the total plan cost.
Avg Plan Paid / Rx	The average plan cost per rx.
Avg Plan Paid / Day	The average plan cost per days supply.
Avg Plan Paid PMPM	The average plan cost per member per month.
Avg Plan Paid PUPM	The average plan cost per utilizer per month.
Total Member Paid	Commercial:The Client Total Patient Pay Amount. The patient pay would include copays and all other charges paid by the member. Medicare Part D:The Client Total Patient Pay Amount. For Medicare Part D claims specifically, the patient pay would include copays and all other charges paid by the member and does also include LICS amount.
% Generic Rxs	The percentage of rxs filled with a generic drug.
